[12-437- Commercial, Non-Residence, Non-Housekeeping, Alteration] Initially told by Dave O'Brien that they were just taking off the offices on the second floor, but when the plans came in, they are demoing the build and building a new, larger car wash. It will be about 30' longer, N though it is 212 larger than the limited 500 sq ft addition before a site plan is required, because the parcel will be going into Tribal Trust, we omitted the site plan. The last project like this when it came time to address the site plan comments, they chose not to and there was no recourse for the City as it was in Trust. - PaulVC 8/17/2017

Repair to the exterior wall and minor interior wall. It was Impacted by a ca which cracked the exterior brick and moved an interior wall by 3/4". Pulled a permit to do repair with the understanding that there will be very limited structural damage (i.e. a slightly bent stud, etc.) - PaulVC 8/31/2017

Infilling train tracks within a building, infilling some loading docks, and framing out a basement area out of masonry Estimated work areas total 7,783 SQ FT.

DEMO FROM FIRE DAMAGE, REMOVE DAMAGED ROOF. (so it is not structually tied into the other two businesses)

The construction will be phased with only 5 wells being constructed for now. See the email in the drag file. If it is successful for retaining renters, it will be expanded in the future.

CT Room Remodel

Adding stairs and an elevator to the building to address access and egress criteria. In addition, interior alterations are being made as part of this project. Currently vacant space.....

This is concerning the 3 story building connected to Pete's Garage at 128 N Broadway. The project has since been phased into 2 phases. The elevator/stairway addition is NOT being done until Phase 2 which leaves the 2nd and 3rd floor unoccupiable at this time. A NEW PERMIT will be required for Phase 2 work to complete the 1,350 SQ FT of work that will entail. See the drag file for the phasing plan. - PaulVC 9/26/2017

As a follow-up to this, I spoke with Jennifer today (9/20/2017) and have come to the following resolutions:

1. Tax credits with partial occupancy as is being proposed with this project is acceptable under the tax credit regulations
2. Jennifer will be submitting a Phasing plan for the project resulting in the ability to seek partial occupancies
3. Occupancy will be sought for the basement and first floor as part of the completion of Phase I
4. The egress items in basement will be completed under Phase I to retain occupancy for that level.
5. Occupancy for the 2nd and 3rd floors will not be granted until after Phase II
6. The external access that was being added to address occupancy on the 2nd and 3rd floors will be in Phase II.
7. Phase I does not require a site plan as it is all internal to the 0 (isting building).
8. The site plan submittal will be concurrently submitted while Phase I is being done.
9. There is no set schedule for Phase II, but it will not happen yet in 2017.
10. No work on Phase II can occur until the site plan is approved.

If you have any questions, please let me know.

Thanks,

Paul
